

CLASSIC Outdoor Wood Furnace (Side Cutaway View)

Photo Electronic Controlled Night Light

Light can be set to automatically turn on at night.

High Capacity Water Jacket

Provides a proven balance between firebox volume and water capacity for optimum performance and safety.

Ripple Top®

For Increased heat transfer area and lower maintenance.

Large, Insulated Cast Iron Door

Automatic Draft Control

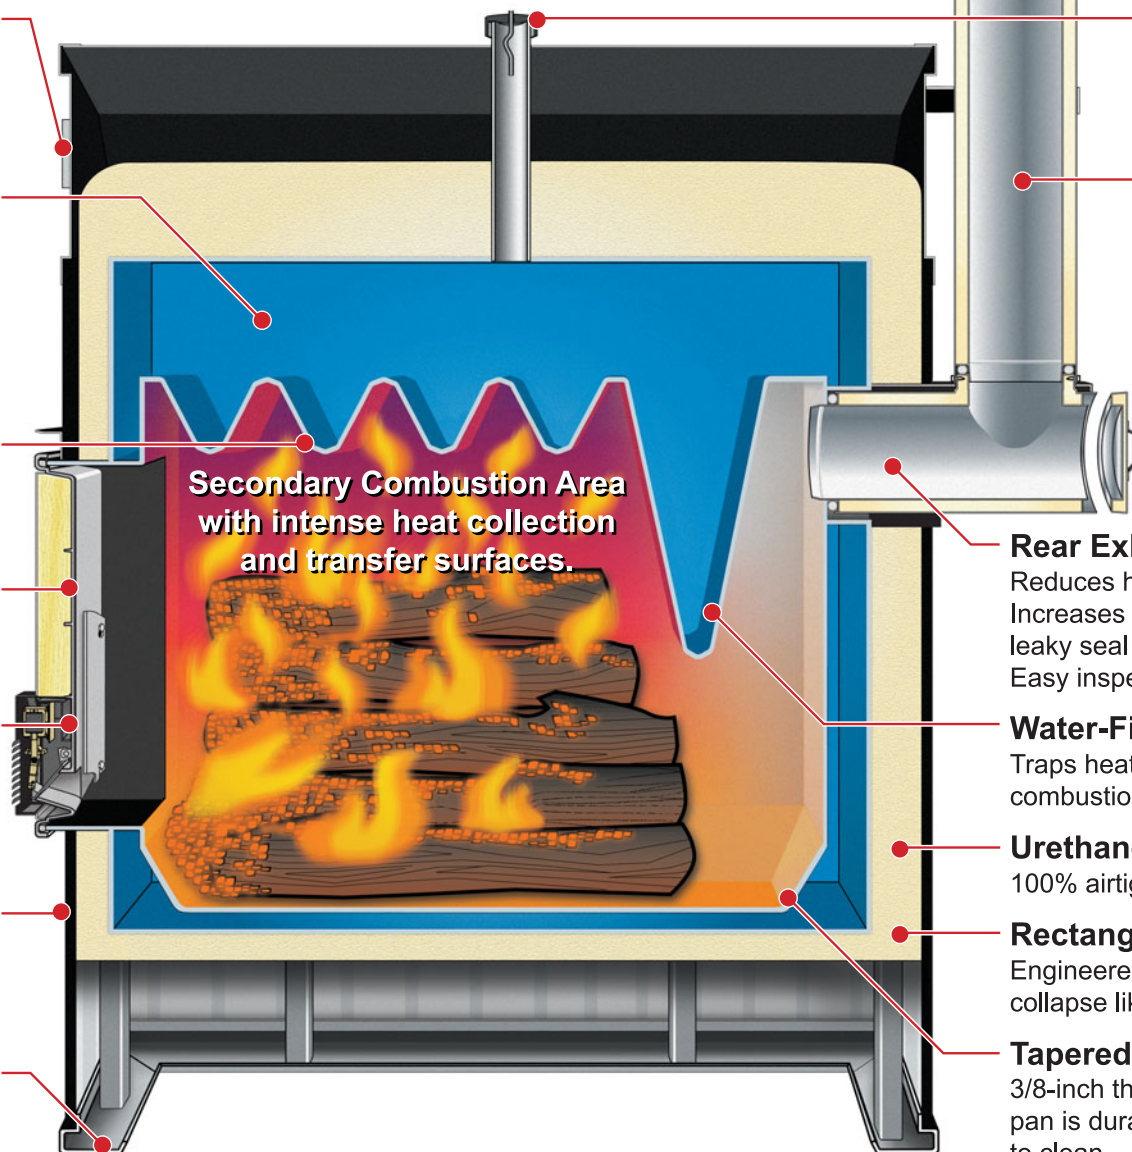

Thermostatically controls water temperature.

All-Weather Steel Siding

Available in a choice of ten colors.

Skid Base Framework

No concrete base needed (except CL 7260 models).

Vent Cap

Virtually eliminates evaporation.

Insulated Chimney

All stainless steel chimney. Two sections standard.

Rear Exhaust Outlet

Reduces heat loss by over 50%. Increases efficiency and eliminates leaky seal of chimney through roof. Easy inspection.

Water-Filled HeatLock Baffle®

Traps heat and gasses for complete combustion and heat transfer.

Urethane Foam Insulation

100% airtight, waterproof.

Rectangular Firebox

Engineered with stay pins - won't collapse like round designs can.

Tapered Ash Pan

3/8-inch thick, formed ash pan is durable and easy to clean.
